

**TECHNICAL FEATURES:**

- 3 Ah. Nikel Metal Hydrate Battery (Mh)
- USB port
- Display to view volume level: General, AUX, radiomicrophone, wired microphone, Mp3
- Button to edit and save parameters
- One class D Amplifier output power 20 Watt on 8 Ω
- Incorporated antilarsen
- Digital volume control
- Radio microphone transmitting frequency UHF682Mhz
- Autonomy: About 6 hours

**INPUTS:**

- USB
- IN AUX (Supplementary radiomicrophone, CD, IPOD, etc.)
- DC-IN (For external power supply)
- MIC (Wired microphone )
- BATTERY CHARGE (Battery charger)

**USCITE**

- AUX-OUT (Preamplified output )
- Nr. 1 Sockets for (opz.) horn speakers

**DOTAZIONE**

- Hand radiomicrophone UHF682Mhz multifrequency.
- Wired microphone
- Battery charger
- Radiomicrophone antenna.
- Instruction manual.

**DIMENSIONS & WEIGHT:**

(h x l x p) 190 x 20 x 70 mm Kg. **3**

**OPTIONAL**

- Supplementary Radiomicrophone.
- Nr. 1 Mobile procession system with speakers

**DESCRIPTION**

Portable amplifier system with shoulder bag. Functioning time up to 6 hours using a 3 Ah Nikel Metal Hydrate Battery. Ability to use the radio microphone with the churches audio system. Can reproduce music via the USB port. Ability to connect the SM-40 mobile procession system with speakers to achieve an increased sound diffusion when used in the open.

**Regulations:**

This unit has been manufactured according to the safety and immunity rules in force and bears the EEC mark foreseen by the EEC directives 89/336.
