

Rated output	200 W
Impedance	16 Ohm
Frequency response	100Hz - 20 KHz +/- 3 dB
Polar dispersion	-3 dB 100° horizontal -6 dB 140° horizontal -3 dB 15° vertical -6 dB 25° vertical
Speakers	11 speakers Nr.8 woofer at 100 mm Nr.3 tweeter
Dimensions (h x l x d)	1125x130x130 mm
Finishing	Welded steel structure
Color	White
Weight	Kg. 10,5

DESCRIPTION

The GL-205 speaker is an advanced vocal reproduction speaker system. The most updated modern technologies have been synthesized to produce a professional "sound reinforcement" system.

The GL-205 speaker system is distinguished by a linear frequency response, angle dispersion, powerful tone correction, excellent intelligibility and natural vocal reproduction.

This speaker system, acoustically aligned by means of sophisticated computerised tests, is situated inside a welded steel sheet structure covered by a strong scratchproof thermosetting epoxy resin covering.

Supplied with wall clamps.

Regulations:

This unit has been manufactured according to the safety and immunity rules in force and bears the EEC mark foreseen by the EEC directives 89/336
